## WHO ARE WE?

Zero Latency is the award-winning company that first introduced the world to free-roam VR and the industry leader in immersive entertainment experiences.

Its mission is simple: bring more joy and blow more minds every day. That mission has been shared with more than 2 million players across over 50 sites in 26 countries to date.

And it's just getting started.

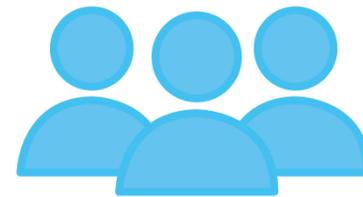

**THE ZERO LATENCY EXPERIENCE**

# WHY ZERO LATENCY?

## EFFORTLESS IMMERSION

Zero Latency provides the closest experience yet to stepping into another reality. With no controllers, cables, or other distractions, Zero Latency is the most effortless way for players of all abilities to explore the most immersive experiences available, with nothing but a headset and their own two feet.

## GROUPS AS LARGE AS 8

Zero Latency experiences are built to be shared, so groups as large as eight can enjoy mind-bending immersive experiences together. It's a go-to group activity for an exciting night with friends, offering games for a range of ages and experience levels.

## ADVANCED WIRELESS STREAMING

With a proprietary remote rendering stack and advanced 6E wireless streaming, Zero Latency delivers up to 16x the performance of traditional all-in-one headsets. Guests can now be seamlessly transported into mind-altering worlds like never before.

# ZERO LATENCY x HTC PARTNERSHIP

Zero Latency is consistently pushing the boundaries of what's possible for player experiences to bring more joy and blow more minds every day.

Zero Latency's latest generation platform was developed in partnership with tech giant HTC to ensure a unique and seamless immersive experience for players across the world.

Featuring a customized HTC VIVE Focus 3 headset, the new remote rendering stack allows customers the first chance to explore Zero Latency's award-winning experiences through 5K video and 3D spatial sound, with nothing more than a headset.

DIVE INTO INSANITY

## ZERO LATENCY x UBISOFT PARTNERSHIP

In an exclusive partnership with Ubisoft, Zero Latency offers fans of the best-selling video game, Far Cry 3, the chance to explore the infamous Rook Island.

Groups as large as eight must work together to break free from Vaas and his henchmen as they trek deeper into the jungle in a fight for survival.

Zero Latency's unique platform allows players to feel truly immersed in this world as they navigate their way through the deranged warlord's jungle gauntlet. Your survival is in your hands.

# AWARD-WINNING EXPERIENCES FOR EVERYONE

Virtual reality doesn't only exist for the seasoned gamer or the adventurous adult. Zero Latency believes that everyone should have the opportunity to enjoy immersive experiences. With eight exclusive games available globally, there is an experience for everyone in the family to enjoy.

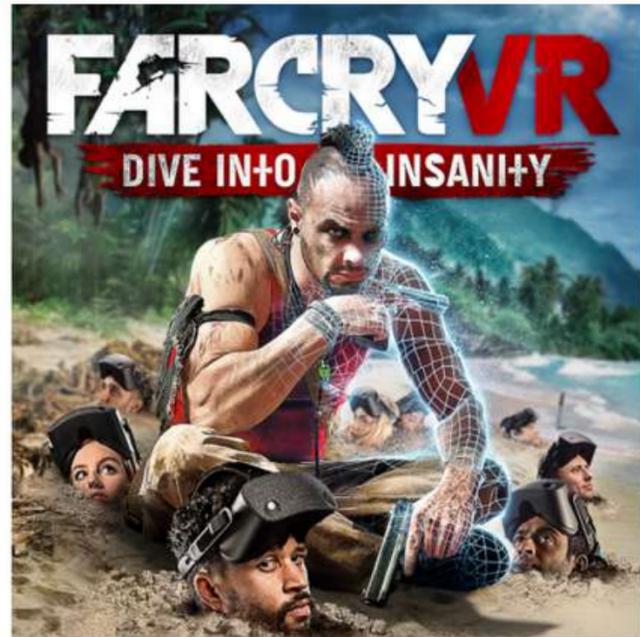

Zero Latency is dedicated to offering the best possible experiences by continuing to put out the best games and equipment that enables each and every visitor to feel a greater sense of presence within immersive game worlds, and it's proud the industry agrees.

It holds multiple awards as a company and for its game titles, including:

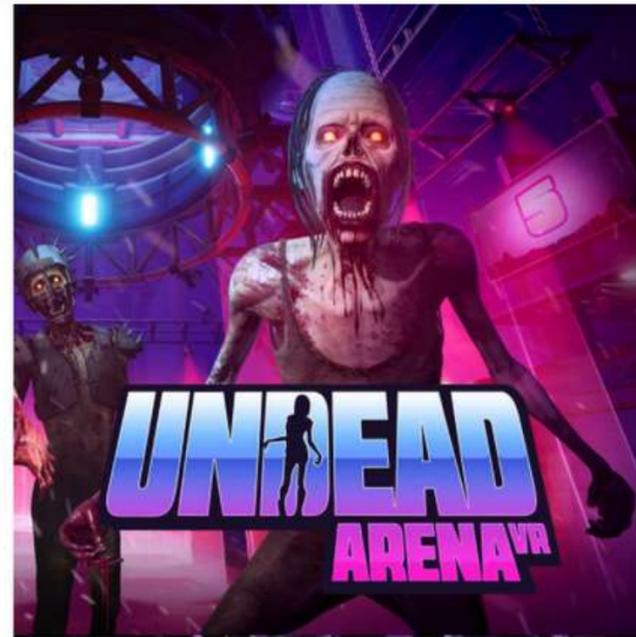

- Real World XR 2020 Award for Best Location-Based VR Experience: Undead Arena
- IAAPA 2017 Brass Ring Award for Best New Product: Engineerium (1st Place); Singularity (2nd Place)
- Deloitte 2017 Award as Technology Fast 50 Winner
- Fast Company 2016 Award for Most Innovative Company - Gaming

# KEY TAKEAWAYS

## **INNOVATION**

Zero Latency is one of the industry's largest investors in innovation and continually pushes boundaries - bringing what once was a novelty experience to a growing audience around the world.

## **EFFORTLESS GROUP EXPERIENCE**

Zero Latency's goal is to provide the most effortlessly immersive experience to players, and the next generation launch now makes it easier than ever to start gameplay for up to eight guests. Put on the headset and go.

## **IMMERSIVE & USER-FRIENDLY**

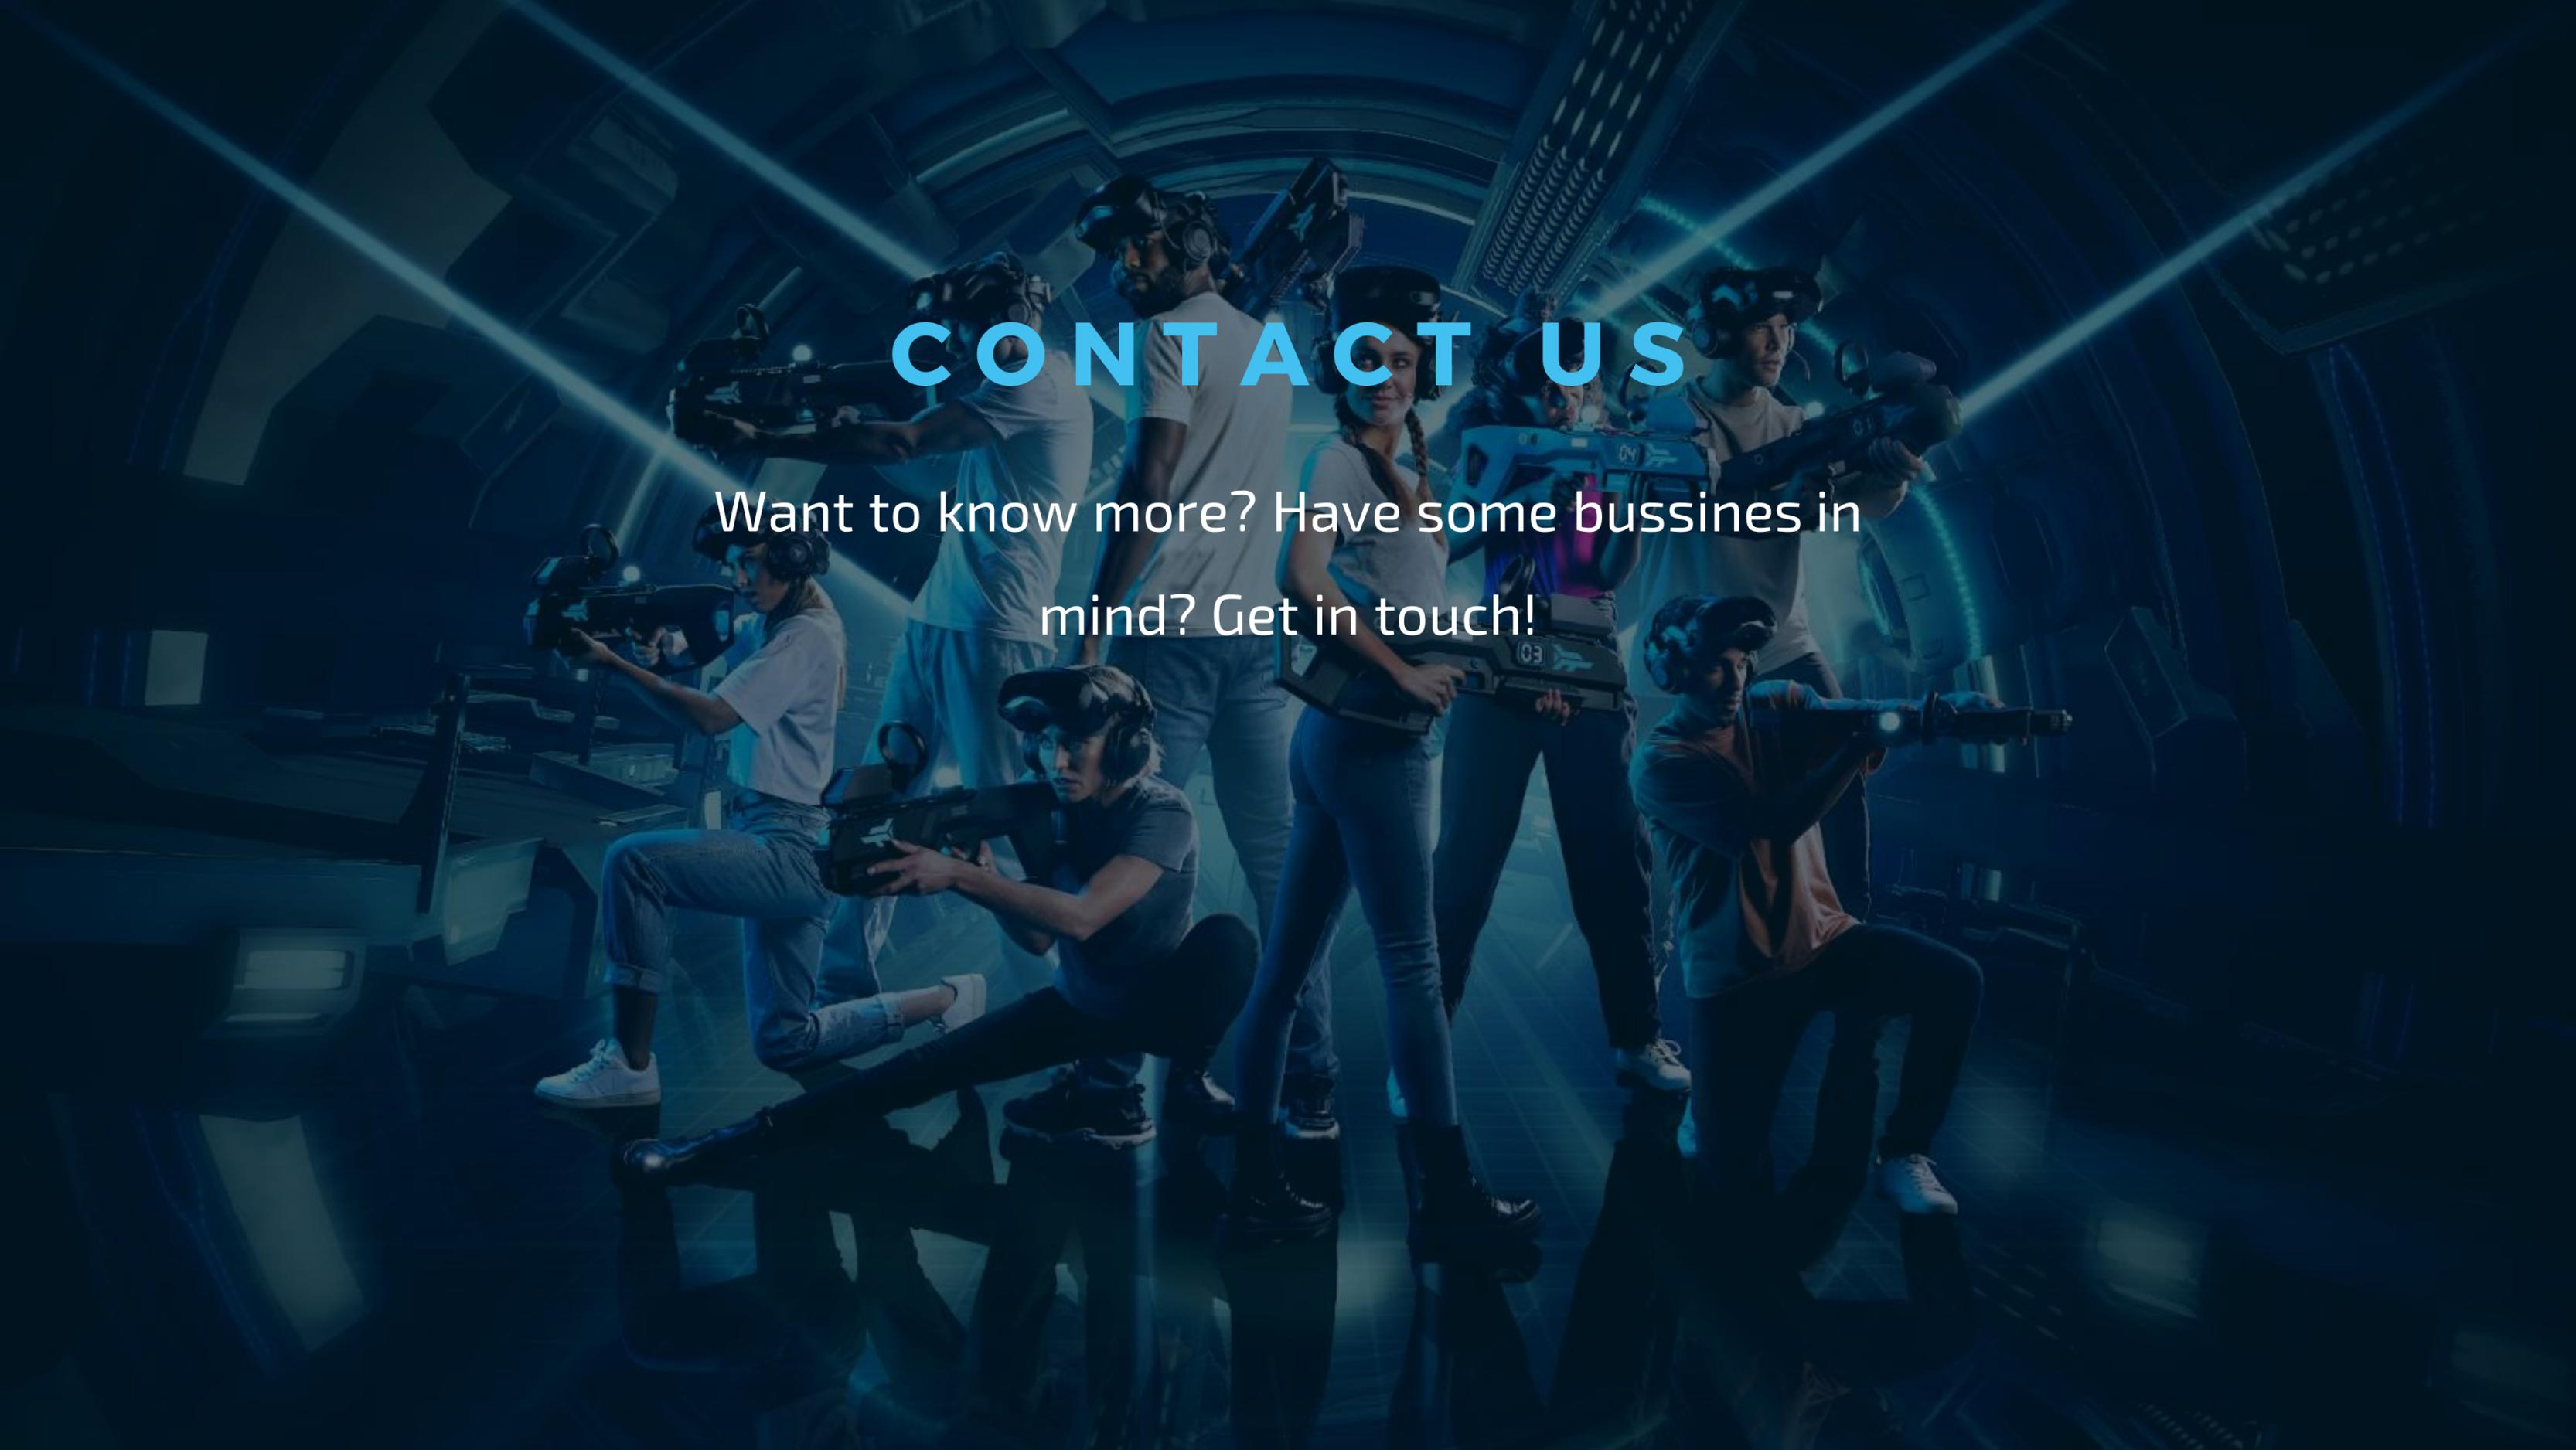

Zero Latency's next generation platform requires no backpack PCs, no sensors and no distractions. Finding new ways to simplify the transition between real and virtual worlds is one of the company's biggest priorities, and it's a win for customers and operators alike.

## **HIGH-QUALITY**

Zero Latency works with the biggest names in the industry, including HP, Intel, Microsoft, Ubisoft, and now HTC. Its long list of partnerships with market-leading companies has allowed it to become one of the most highly-regarded, respected leaders in the industry today.
